Mr. Richard McGill  
President  
Arizona SunRiders ATV Club  
P.O.Box 5054  
Quartzsite, Arizona 85359

April 5, 2010

Dear Mr. McGill,

As you know, our Town Council voted unanimously to support Arizona SunRiders ATV Club's project of trail proposal, map of trails, and prospectus. Our Council looks for ways to promote our community, encourage economic growth and make Quartzsite a great place to visit and live. We are fortunate that we live in the middle of a beautiful desert with wilderness, mining, lakes, rivers and historic sites all within an easy trail ride of Quartzsite. We concur that ATVing is an important tourist and resident activity in our area that brings tourist dollars and economic prosperity to the community as well as providing an educational and recreational opportunity. We would like to assist you in promoting ATV riding, marking the trails and assuring safe enjoyment of our beautiful desert. To that end we are forwarding a copy of this letter to the Bureau of Land Management with a copy of your prospectus for their review and information.

On behalf of all of the Council, I would like to thank you and your club members for their dedication to this very important project that will make Quartzsite a destination tourism place that extends beyond the gem shows. The support of the Roadrunner Gem and Mineral Club, with 850 members; the Metal Detecting Club, with 550 members; and your own club of 250 members is a substantial beginning to this project. We hope that BLM will concur and work with us to continue this important project. They have been in Quartzsite seeking public comment regarding the trail mapping process. We hope they consider that many retirees do not have the physical stamina to walk to all the mines, historic sites and desert wilderness areas and will keep these sites open to ATV trails. We look forward to working with your club this next season to support ATVing in Quartzsite.

Sincerely,

Mayor Wes Huntley

CC: James T. Shoaff, Field Manager  
Bureau of Land Management
